TAC SUPERVISION COUNCIL

Standard Operating Procedure, Membership Applications & Public Transparency Log

Operational governance document for The Anarchist Confederation (TAC).

Contents:

- Standard Operating Procedure (SOP)
- Server Application Form — Full Membership & Associate Partnership
- Supervision Council Delegate Nomination/Application Form
- Public Audit & Transparency Log Template

Standard Operating Procedure (SOP): TAC Supervision Council

I. Purpose & Scope

This SOP establishes the operational workflow for the 10-member Supervision Council of The Anarchist Confederation (TAC). Its objective is to process new Full Member and Associate Partnership applications, maintain directory transparency, and handle compliance audits efficiently without exercising command authority over local nodes.

II. Intake & Application Workflow

Step 1: Submission

Prospective servers, unions, or collectives submit their application via the designated intake form or community channel, providing:

- Server/Group name and proposed branch title.
- Statement of ideological alignment (referencing Section VI of the Charter).
- Proof of meeting activity thresholds (e.g., minimum 5 active members for partnerships).
- Confirmation of willingness to display the mandatory emblem format: ✯T□C ✯[Name] ✯ □□.

Step 2: Council Review Period (48–72 Hours)

- The application is logged in the Council's working channel (e.g., Matrix or dedicated secure platform).
- At least 3 council delegates must review and verify the application against the Charter criteria (checking for prohibited ideologies, reactionary tendencies, or entryism).

Step 3: Officiating & Directory Listing

- If no objections are raised and criteria are met, the council officially approves the applicant.
- The applicant is added to the official TAC public node directory, and authorized to display their federated emblem.

III. Compliance Audits & Dispute Resolution

- Random or Triggered Audits: If a node or partner is reported for violating the Anti-Racism / Anti-Fascism policy or harboring reactionary content, the Supervision Council opens a review ticket.
- Fact-Finding: Council delegates examine evidence and contact the node administrators for clarification.
- Recommendation Report: The Council compiles its findings and presents them to the wider network with a recommendation (e.g., clearance, probation, or a peer-reviewed disaffiliation vote).

IV. Transparency & Logging Protocol

- The Public Audit Log: While initial applicant discussions occur within the council working channel to protect privacy and deliberate safely, all final decisions (approvals, partnership grants, and disaffiliations) must be published immediately in a public transparency log.
- Rotation & Accountability Records: A public roster of the 10 current council delegates, their home nodes, and their respective language representation must be maintained so that local nodes can exercise their right to recall or rotate delegates at any time.

1. Server Application Form (Full Membership & Associate Partnership)

Copy-and-paste template for servers, institutions, or collectives applying to join TAC.

□ The Anarchist Confederation (TAC) — Membership Application

1. Basic Information

- Server / Collective Name: _____
- Primary Platform (e.g., Discord, Matrix, Mastodon, Website, Physical Space): _____
- Approximate Active Member Count: _____
- Preferred Operational Language (from the TAC approved list): _____

2. Membership Tier Requested

- [ ] Full Confederation Membership (Full Node / Branch) — Requires mandatory display of ✯T□C ✯[Name] ✯ □□ and participation in federated solidarity.
- [ ] Associate Membership (Partnership) — Less structural requirements, minimum 5 active members, aligned anti-authoritarian focus.

3. Ideological Alignment & Principles

- Which permitted political framework(s) best describe your community? (e.g., Anarcho-Communism, Syndicalism, Councilism, Communalism, Libertarian Socialism, Prosocial Egoism, etc.):

  _____

- Do you explicitly agree to uphold TAC's Zero Tolerance policy against Fascism, Nazism, Authoritarian State Socialism (Vanguardism/ML), Right-Wing "Anarcho"-Capitalism, and Reactionary/Bigoted ideologies?
- [ ] Yes / [ ] No

4. Community Standards & Accountability

- Do you acknowledge and agree to the principle of "Cause & Effect Accountability" (that freedom of speech does not mean freedom from consequences, and that communities are responsible for combating bigotry and hate)?
- [ ] Yes / [ ] No

5. Emblem & Display Confirmation (Full Members Only)

- Do you confirm your server will display the required text emblem (✯T□C ✯[Name] ✯ □□) in your title/bio?
- [ ] Yes / [ ] N/A (Applying for Associate Partnership)

2. Supervision Council Delegate Application / Nomination Form

Template for individuals nominated by their home node to serve as one of the 10 delegates on the Supervision Council.

TAC Supervision Council — Delegate Nomination Form

1. Candidate & Node Information

- Nominee / Delegate Name or Handle: _____
- Home Node / Server Representing (must be a verified TAC member): _____
- Primary Language(s) Spoken / Written: _____

2. Accountability & Mandate

- Do you acknowledge that the Supervision Council holds zero command authority, and that your role is strictly procedural compliance, directory maintenance, and external liaison?
- [ ] Yes / [ ] No
- Do you understand that your home node or the confederation retains the right to recall and rotate your delegate seat at any time?
- [ ] Yes / [ ] No

3. Commitment to Transparency

- Do you agree to log all final official decisions (approvals, partnership grants, and audit findings) in the public transparency log?
- [ ] Yes / [ ] No

4. Brief Statement of Intent

- In 2–3 sentences, state why your home node is nominating you and how you plan to support horizontal cooperation within TAC:

> [Insert statement here]

3. TAC Public Audit & Transparency Log

Template for standardized public log entries recording Council actions, approvals, partnerships, audits, and disaffiliations.

□ TAC Public Audit & Transparency Log

[LOG ENTRY #000] — [DATE: YYYY-MM-DD]

- Action Type: [e.g., Full Node Approval / Associate Partnership Granted / Audit Review / Disaffiliation]
- Target Server / Collective: [Insert Name of Server or Group]
- Assigned Tier: [Full Confederation Member / Associate Partner]
- Represented Branch / Language: [e.g., European International / Spanish & English]
- Reviewing Council Delegates: [List 3 Council Delegates involved]

Summary of Decision:

- Verification Status: Verified compliance with TAC Charter Section V (Ideological Framework) and Section VI (Membership Requirements). Emblem format confirmed (★T□C ★[Name] ★ □□) where applicable.
- Notes / Outcome: [Brief statement on why the application was approved or why an audit action was taken—e.g., "Meets all anti-fascist guidelines, minimum active threshold verified, officially added to the directory."]

[LOG ENTRY #001] — [DATE: YYYY-MM-DD]

- Action Type: [e.g., Disaffiliation / Charter Breach Revocation]
- Target Server / Collective: [Insert Name]
- Reason for Action: [e.g., Violation of Anti-Racism / Anti-Fascism policy or harboring reactionary content]
- Outcome: [e.g., Federated links severed, removed from public directory following peer review.]

End of document.

SOP & ADMINISTRATIVE AMENDMENTS

SOP Amendment I — Review Roles

The 48–72 hour period applies to routine applications. Complex or contested applications may receive additional review time, which should be recorded.

- At least 3 independent delegates review a routine application.
- A delegate with a conflict of interest must recuse themselves and does not count toward the three-delegate minimum.
- If the minimum independent review cannot be achieved, the review pauses until additional eligible delegates are available.

SOP Amendment II — Application Outcomes

Replace unilateral 'Council approval' with a procedural outcome model.

- Certified: Published objective criteria are satisfied and no substantive objection remains.
- Referred: A substantive objection requires wider federated review.
- Incomplete: Required information or evidence is missing; the applicant may resubmit.
- Not Certified: The documented criteria are not satisfied, with the procedural basis recorded.

SOP Amendment III — Audit & Dispute Procedure

Triggered audits follow a standardized sequence.

- 1. Intake: Record the complaint, date, target, and general allegation.
- 2. Screening: Determine whether the allegation falls within the Charter and whether a conflict of interest exists.
- 3. Notice: Notify the affected node of the general allegation and request a response.
- 4. Fact-Finding: Review relevant documents, public material, and submitted evidence.
- 5. Response: Give the affected node a reasonable opportunity to respond.
- 6. Report: Council delegates prepare factual findings and a recommendation.
- 7. Federation Review: Major sanctions, including disaffiliation, proceed through the wider peer-review process.
- 8. Record: Publish the final procedural outcome while protecting personal, private, or security-sensitive information.

SOP Amendment IV — Standard Decision Vocabulary

Use consistent categories in the public log:

- Membership: Full Membership, Associate Membership, Application Withdrawn, Not Certified.
- Compliance: Routine Audit, Triggered Audit, Compliance Confirmed, Corrective Action.
- Federation Status: Probation, Disaffiliation, Reinstatement.
- Administration: Delegate Appointment, Delegate Recall, Delegate Rotation, Directory Update.

SOP Amendment V — Privacy and Transparency

Transparency applies to final organizational decisions, not unrestricted publication of every piece of evidence collected during deliberation.

- Public records should normally include the decision, date, organization, category, participating delegates, and procedural basis.
- Personal information, private correspondence, sensitive security information, and unnecessary identifying details should be withheld from public logs.
- The public log should identify recusals where relevant to the integrity of the process.

SOP Amendment VI — Administrative Authority Boundary

Council procedures cannot create new constitutional powers.

- The SOP implements the Charter; it does not amend it.
- Any new sanction, membership category, Council power, or jurisdiction must be added through the Charter's amendment process before being used as a binding rule.

TAC Supervision Council SOP — Second Amendment Package

Second Amendment Package — SOP Alignment with General Assembly Model

This amendment package aligns the Supervision Council SOP with the amended Charter. The General Assembly is the entire active membership of TAC and is the federation-wide deliberative and decision-making forum. The Council remains a limited administrative delegation.

SOP Amendment VII — General Assembly Referral

Applications, routine directory administration, and procedural audits may be handled under the Council SOP where authorized. Matters involving Charter amendment, federation-wide policy, major constitutional interpretation, or final decisions expressly reserved to the membership shall be referred to the General Assembly.

SOP Amendment VIII — Council as Administrative Delegation

The Council shall not treat its administrative certification as sovereign approval over autonomous nodes. Certification confirms that an application has satisfied established procedural criteria; it does not authorize the Council to direct the applicant's internal affairs.

SOP Amendment IX — Delegate Mandates and Reporting

Each Council delegate's appointment record should identify the appointing node, mandate, appointment date, rotation or review date, working languages, and recall procedure. Delegates should maintain sufficient records for their appointing communities and the public transparency system.

SOP Amendment X — Assembly-Compatible Decision Workflow

Where a matter exceeds the Council's delegated authority, the Council shall document the issue, identify the relevant Charter provision, preserve relevant evidence, and refer the matter through the appropriate General Assembly process rather than creating an administrative rule by itself.

SOP Amendment XI — Ideological Review Boundaries

Compliance review should focus on the applicant organization's declared organizational principles, governing practices, and relevant conduct. Mere disagreement, criticism, advocacy for Charter amendments, or unpopular viewpoints should not be treated as evidence of a Charter violation without additional conduct establishing a relevant organizational breach.

SOP Amendment XII — Distributed Assembly Administration

Where the General Assembly operates through asynchronous or geographically distributed procedures, the Council may provide administrative support such as notice distribution, recordkeeping, language-access coordination, technical facilitation, and publication of adopted decisions. Such support does not transfer decision-making authority to the Council.

TAC Supervision Council SOP — Horizontalism Alignment

SOP Amendment XIII — Horizontal Administrative Practice

The Supervision Council shall conduct its work as a horizontal coordination body. Delegates shall not describe or exercise their administrative mandates as superior authority over participating nodes or members.

Mandate before discretion. Where a task can be completed through an existing Charter rule or recorded mandate, delegates shall follow that authority rather than create new policy through administrative practice.

Referral before expansion. If the Council encounters a matter outside its delegated mandate, it shall refer the matter to the appropriate General Assembly or Charter-defined process rather than treating silence in the Charter as permission to expand its jurisdiction.

Transparency. Material Council actions should identify the Charter provision, mandate, or procedure on which the action rests.

Rotation and recall. Administrative continuity shall not be used as a justification for permanent tenure. Rotation, recall, and reporting remain core accountability mechanisms.

SOP Amendment XIV — Horizontal Coordination Protocol

When communicating with local nodes, Council delegates should frame communications as notices, requests, findings, procedural determinations, or implementation of an established mandate, as applicable. They should not issue commands concerning matters outside the Council's lawful authority.

Where a local node contests the Council's authority, the dispute should be recorded and referred to the appropriate Charter-defined review mechanism rather than resolved solely by the Council asserting its own jurisdiction.
